60 minutes of Hanna Tiferet's beautiful new melodies

"I sing from the lovelight of G!d in my heart to the lovelight of G!d in your heart and healing happens." With this intention, the prayer/songs of "Tiferet," my eighth album, called themselves into being. Tiferet is the Heart Chakra in the Tree of Life which channels compassion, balance, beauty, and connection. With the vibration of song and the rhythm of dance, we can bridge our differences and come together in joyful harmony. As a Baba, I now see the world through Grandmother Eyes and I pray that our precious children live long and prosper in a world that is safe and sane. May we all be blessed to dwell in peace as we open our hearts to the healing power of love and kindness.

An awesome band of talented musicians have added their soulful music to my vocals on these 14 new melodies. Shulamit Wise Fairman harmonizes like an angel, Eden MacAdam-Somer soars on the fiddle, Hankus Netsky lets loose on piano and accordion, Billy Novick has impeccable taste on soprano sax, Deb Lempke keeps the rhythm going on a variety of drums, and Eric Kilburn, producer extraordinaire, plays various guitars and a mean mandolin. I can't wait to share this with you all. You won't be able to sit still!
